

Lleyn Peninsula Webcam

The webcam is remotely controlled so the view will change from time to time. The image is updated every 5 minutes. The webcam is physically located close to postcode LL53 8EH. We get some spectacular sunsets here, to view some examples visit our Photo Gallery. If you want to verify the weather you are seeing then checkout the local weather page.

We are often asked where the webcam is. Use this link to a Google map show it's location.

20/02/2008: Sorry about the image content but we are having an extension built, hence the scaffolding. The camera is going to be relocated onto a higher point after works are completed but, for now, the view is obscured.

If you wish to link to this page then we are happy for you to do that providing you acknowledge the source. If you want to link to the image only then this is the URL: <http://www.llyn-wales.co.uk/webcam/webcam.jpg>
